MAIN SALON

MAIN SALON

Highlighted by warm oaks, the main salon is a casually elegant retreat. Dark wood furniture with organically carved edges give way to details such as the stingray embossed Shagreen leather cabinet covering and stitched leather handles.

A center island of cascading "Blue Jeans" marble is a focal point of the forward country kitchen, which is further brightened by a skylight and large windows.

Unexpected Experiences. Through artwork, lighting, textures and hidden storage, thoughtful touches are implemented throughout.

Set off by exquisite backlit onyx slabs, the formal oak dining table with mother-of-pearl inlay is backed by cabinetry that houses a large pop-up television providing a complete theater experience.

MASTER STATEROOM

The Crestron lighting system throughout can be customized to suit each mood. Here, the master stateroom, with its chrome and leather drawer pulls, exudes an expedition travel flair.
